Team Leader at Qubeats • Ph.D. Researcher (Applied Physics)

Qubeats • School of Physics, University of Hyderabad (CASEST Laboratory), India

---

PROFESSIONAL EXPERIENCE & ENGINEERING LEADERSHIP

Team Leader

2026 February – Present

Qubeats

- Team leader of Magnetic Navigation application development for GPS-denied environments — driving core technology from prototype through to product development.
- Leading and coordinating an engineering team of 16 members across embedded systems, hardware instrumentation, sensor fusion, and navigation algorithms.

Electronics and Instrumentation Engineer

2025 Dec – 2026 February

Qubeats

- Engineered specialized electronics, sensor acquisition pipelines, signal conditioning circuits, and automated instrumentation test fixtures for magnetic navigation and sensing systems.

ACADEMIC & DOCTORAL RESEARCH APPOINTMENT

Senior Research Scholar (Ph.D. Candidate)

2019 – Present

School of Physics, University of Hyderabad (CASEST Laboratory)

Supervisor: Prof. K. C. James Raju
Status: Doctoral research completed; Ph.D. thesis submission in progress (Duration: 2019 – Present).
Dissertation Focus: Synthesis of soft magnetic FeGaB thin films, dynamic high-frequency magnetization dynamics, broadband VNA-FMR characterization, magnetoelectric voltage coefficients, and lightweight EMI shielding nanocomposites.

NATIONAL FELLOWSHIPS & ELIGIBILITY

CSIR-UGC National Eligibility Test (NET) – Junior Research Fellowship (JRF)

Qualified

Council of Scientific and Industrial Research, Physical Sciences

Graduate Aptitude Test in Engineering (GATE) — Qualified

Physics (PH)

State Eligibility Test (SET) — Qualified

Lectureship in Physical Sciences

Bachelor of Education (B.Ed) — Completed

Physical Science Education

SCHOLARLY IMPACT SUMMARY

Publications:	**22 Peer-Reviewed Journal & Conference Papers**
Citations:	**185+ Citations** (Google Scholar verified)
h-Index / i10:	**7 / 7**
Memberships:	**Life Member**, Magnetic Society of India (LM 904)

EXPERIMENTAL SETUPS & SCIENTIFIC HARDWARE ENGINEERED

1. Broadband Vector Network Analyzer Ferromagnetic Resonance (VNA-FMR) System

Designed CPW-based transmission fixtures and field sweeps from 0.1–20 GHz for Landé g-factor, effective magnetization, and intrinsic damping extraction.

2. Dynamic Magnetoelectric (α_{ME}) Voltage Measurement Bench

Integrated DC bias magnetic fields (up to 4000 Oe) with high-precision Helmholtz AC field coils and lock-in detection for multiferroic sensor testing.

3. Miniature In-Plane Electromagnet for RF Probe Station

Engineered an ultra-compact 800 Oe @ 1A electromagnet designed to fit directly onto high-frequency microwave probe station chucks.

4. Low-Cost Speed-Controllable Precision Optical Chopper

Developed an Arduino & BLDC drone motor based chopper with 3D printed slotted discs producing light modulation up to 2.8 kHz at <₹3,800 INR BOM.

CONFERENCE PRESENTATIONS

ICMAGMA 2025 (IISc Bangalore) Feb 2025

Poster: *"Effect of Swift Heavy Ion (SHI) Irradiation on Magnetic Properties of FeGaB Thin Film"*

Frontiers in Physics 2024 (Univ. of Hyderabad) — Sep 2024

Poster: *"Development of VNA FMR and precise determination of Landé g-factor of FeGaB Thin films"*

ACMMT 2023 (Chiang Mai, Thailand) — Nov 2023

Oral Presentation: *"Room Temperature Static Magnetic Properties of Pt/FeGaB/Pt Tri-Layer"*

ICACMP 2023 (GITAM Hyderabad) — Oct 2023

Oral Presentation: *"Ferromagnetic Resonance Characterization of FeGaB Thin Films Using VNA"*

ICMAGMA 2023 (Hyderabad, India) — Dec 2023

Poster: *"Frequency domain ferromagnetic measurements in FeGaB thin films"*

TECHNICAL & CHARACTERIZATION EXPERTISE

Thin Film Deposition:	RF/DC Magnetron Sputtering, Pulsed Laser Deposition (PLD), Sputter Coaters.
High Frequency:	Vector Network Analyzers (VNA), VNA-FMR, Waveguides (X & Ku bands), Cavity Perturbation.
Magnetic:	Conventional MOKE (TIFR), Quantum Design PPMS, In-plane / Out-of-plane M-H loops.
Micro/Nanofab:	Photolithography, Mask aligner, Wet & dry etching, MEMS micro-cantilevers (CeNSE IISc).
Structural/Surface:	FESEM, Powder & GI-XRD, XRR, AFM, Stylus Profilometry, UV-Vis-NIR Spectrophotometry.
Large Facilities:	Swift Heavy Ion (SHI) Irradiation Pelletron Beamlines (IUAC New Delhi).
Computation & Code:	LabVIEW Automation, Python (NumPy, SciPy, Matplotlib), Arduino Embedded C++, Automated Data Acquisition.

SPECIALIZED CLEANROOM & ANALYTICAL TRAININGS

- **INUP-i2i Hands-on Training on Nanofabrication & Characterization:** CeNSE, IISc Bangalore (Feb 2023).
- **INUP-i2i Nanofabrication Technologies Workshop:** IIT Bombay (Jan 2023).
- **ASSURE Workshop on Magnetism:** TIFR Hyderabad & Osmania University (Dec 2024).
- **Powder and GI-XRD Advanced Instrument Training:** School of Physics, UoH (Mar 2025).
- **Workshop on Ion/Laser Beams in Nano-Science (WINS-2025):** CFN, University of Hyderabad (Feb 2025).
- **Python for Data Analysis Hands-on Workshop:** SCIS, University of Hyderabad (Jan 2024).
- **Workshop on Rietveld Refinement:** MAMO College & SIAS Research Forum (Mar 2024).

MENTORSHIP & OUTREACH

M.Sc. Physics Project Mentorship 2024 – 2025

Mentored Suraj Chandra Joshi (23PHMP02), University of Hyderabad: *"Investigation of the magnetic properties of FeGaB thin films via VNA-FMR and high-frequency characterization"*.

TheSciencia.com & YouTube Channel Active

Founder and primary educator delivering high-level CSIR-NET and SET Physical Sciences lectures across TheSciencia.com and YouTube.
